

What are the differences between the two health plans offered by the University?

We're the only health plan staffed by University employees. We know this health plan, **because it's our health plan, too!**

Premiums are between \$22 and \$62 less per month, which reflects an **annual savings of \$264 to \$744.**

Our **adult primary care physician network** includes Harvard University Health Services, Harvard Vanguard, and the other Atrius Medical Groups. This includes over **25 primary care physician groups** throughout Eastern Massachusetts.

Effective January 1, our **pediatric primary care physician network will include all BCBS HMO Blue pediatricians and family medicine practitioners in Massachusetts.**

We're the only health plan that allows you access to **all care** at Harvard University Health Services.*

*Members enrolled on the Blue Cross Blue Shield HDHP can be seen at HUHS
